Trustee Education Programme

September is traditionally the time for setting new goals – the perfect time, then, to commit to completing the Trustee toolkit.

The toolkit, our fully interactive e-learning programme, is made up of a series of stand-alone modules. Designed by e-learning and pension experts and based on real-life scenarios, you'll find the modules interesting and fun.

Successfully completing the toolkit – and obtaining your certificate – will help you to meet your statutory requirements. The Pensions Act 2004 requires that trustees have knowledge and understanding of:

- the law relating to pensions and trusts
- the principles relating to the funding of occupational schemes
- the investment of scheme assets.

Although designed specifically for trustees, the toolkit is open to anyone interested in using it. It can prove an invaluable resource for advisers and employers, enabling them to check their own understanding of the issues facing today's pension scheme trustee.

Register for the Trustee toolkit today www.trusteetoolkit.com

And finally, make sure you subscribe to our [news-by-email service](#) – it's a free and easy way to keep up to date with our developments and latest press releases.
